In re Application of DUNCAN ET AL.
Appl. No.: 10/666,657
Filed: September 19, 2003
For: **BAFFLED ATTIC VENT**

**RESPONSE TO PETITION
UNDER 37 CFR 1.59**

This is a response to the petition under 37 CFR 1.59(b), filed 02/27/07, to expunge information from the above identified application.

The decision on the petition will be held in abeyance until mailing of allowance of the application or mailing of an *Ex parte* Quayle action or a Notice of Abandonment, at which time the petition will be decided.

Petitioner requests that documents referenced on the Form PTO/SB/08A/B as cite nos. A thru K, in an Information Disclosure Statement filed on November 10, 2006, be expunged from the file history record. Petitioner states either: (A) that the information contains trade secret material, proprietary material and/or material that is subject to a protective order which has not been made public; or (B) that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and the information has not otherwise been made public. The petition fee set forth in 37 CFR 1.17(h) has been paid.

The decision on the petition is held in abeyance because prosecution on the merits is not closed. Accordingly, it is not appropriate to make a final determination of whether or not the material requested to be expunged is "material," with "materiality" being defined as any information which the examiner considers as being important to a determination of patentability of the claims. Thus, the decision on the petition to expunge must be held in abeyance at this time.

Art Unit: 3635

During prosecution on the merits, the examiner will determine whether or not the identified document is considered to be "material." If the information is not considered by the examiner to be material, the information will be removed from the official file.
